

DriverCheck: Driver Monitoring and Online Safety Training

Where innovation meets experience to solve your technology risk management needs. Working with OneBeacon Technology Insurance™ means you can rely on an exceptionally responsive team that is highly knowledgeable about the dynamic technology industry. We don't just know tech, we're passionate about it and those who share our focus. And because of our flat organization, you will always reach an empowered decision-maker who can promptly solve your risk management needs.

Our risk management services are built to deliver high-quality solutions to help safeguard against risks that threaten your business success. And our flexible, innovative risk control services identify loss mitigation strategies for existing—and emerging—issues and technologies.

Operating a fleet exposes an organization to a wide variety of potential losses, some of which are difficult to control. How drivers operate their company vehicles is the major exposure that any fleet faces. You trust your drivers to operate their vehicle independently, away from your control. However, studies show that over 95% of vehicle collisions occur due to driver error. And errors or poor driving behaviors have occurred with those drivers many times before they result in a collision.

Are You Prepared?

How prepared are you to monitor your drivers while they are on the road? Do you track driving infractions and provide appropriate feedback? What about having a system in place to provide appropriate feedback when an employee's driving has been reported?

OneBeacon Technology Insurance wants to help—before a driver's behaviors lead to a collision. Working with DriverCheck, a leader in the driver monitoring field, we are pleased to offer services that will monitor driving behaviors and provide follow up counseling and training resources to help ensure that drivers are correcting their over-the-road operation errors.

Business Motivation

Being able to see who will be involved in a collision before it happens is a luxury that employers don't have. But with driver monitoring, employers can see which drivers exhibit behaviors that are known causes of collisions. With this knowledge, preemptive training and corrective action can be taken before a loss occurs. They also receive immediate feedback to identify the key problem drivers in their fleets and to provide specific counseling to address their behaviors. What's more, they can reinforce positive driver behaviors and an overall safety culture.

DriverCheck offers a full range of driver monitoring services. Since 1986, they have been recognized all across North America by the familiar “How’s My Driving” decal. The DriverCheck risk management program has been used by thousands of companies in the United States and Canada to lower collision frequency and costs, to save lives, and to add money to the bottom line. DriverCheck has recently added telematics solutions (GPS) and on-line driver safety training to their service offerings. Visit drivercheck.net for more information.

OneBeacon Technology Insurance, a brand of OneBeacon Insurance Group, Ltd., delivers all-lines underwriting solutions for the technology, life science and medical technology, and telecommunications industries. The specific capabilities offered include risk control, claims and third-party vendor solutions. Products span property, casualty, cyber, E&O, international, products liability and professional coverages. Our dedicated team of insurance professionals delivers custom solutions as needed to each of our customers.

OneBeacon Insurance Group Holdings, Ltd. OneBeacon Insurance Group Holdings, Ltd. (“OneBeacon”) is a subsidiary of Intact Financial Corporation (TSX: IFC). OneBeacon’s underwriting companies offer a range of specialty insurance products sold through independent agencies, regional and national brokers, wholesalers and managing general agencies. OneBeacon’s solutions target group accident and health; commercial surety; entertainment; environmental; excess property; financial institutions; financial services; healthcare; inland marine; management liability; ocean marine; public entities; technology; and tuition refund.

Service Offerings

Through our partners at DriverCheck, OneBeacon offers a comprehensive package of driver monitoring services that include:

- “How’s My Driving” decals for all vehicles in your fleet with call centers staffed 24 hours a day, 7 days a week to receive driver reports.
- Driver safety reports customized to your drivers’ actions along with counseling and training safety tools that are tailored to each individual’s driving infraction, as well as reports to track program savings.
- Assistance with designing behavior modification programs with DriverCheck’s in-house driver safety consultant. Online training is also available to enhance drivers’ knowledge and situational awareness.

Additional Options

The following fleet safety management solutions available to OneBeacon clients are highly competitive with the industries best prices:

- FleetTRAC – A GPS/telematics tracking solution that includes hardware and a robust tracking system with a full range of GPS services.
- Online Driver Safety Training Program – There are currently 15 driver safety training courses available, including topics such as Distracted Driving, Tailgating, Speeding, Right of Way, Changing Lanes, Aggressive Driving and Backing. You will also have access to DriverCheck’s proprietary Learning Management System to assign training, distribute courses and track progress and results.
