

DriverCheck: Online Driver Training For OneBeacon Technology Insureds

Where innovation meets experience to solve your technology risk management needs. Working with OneBeacon Technology Insurance™ means you can rely on an exceptionally responsive team that is highly knowledgeable about the dynamic technology industry. We don't just know tech, we're passionate about it and those who share our focus. And because of our flat organization, you will always reach an empowered decision-maker who can promptly solve your risk management needs.

Our risk management services are built to deliver high-quality solutions to help safeguard against risks that threaten your business success. And our flexible, innovative risk control services identify loss mitigation strategies for existing—and emerging—issues and technologies.

OneBeacon Technology Insurance wants to help—before a driver's behaviors lead to a collision. Working with DriverCheck, a leader in the driver monitoring field, we are pleased to offer services that will monitor driving behaviors and provide follow up counseling and training resources to help ensure that drivers are correcting their over-the-road operation errors.

Learning Management System

Safe driving begins with solid training. We're pleased to offer our insureds with access to online self-paced training through DriverCheck. This online driver training program features fast, efficient and effective courses that your drivers can take in 15 to 20 minutes. Each class includes a test to demonstrate their knowledge, keeping them productive and on the road.

Online Driver Training – 24/7/365 access to the following DriverCheck online training modules:

- 15 Passenger Van
- Driving Your Brand
- Right of Way
- Aggressive Driving
- Drowsy Driving
- Speeding
- Backing
- Hard Braking
- Stop Signs/Lights
- Changing Lanes
- Impaired Driving
- Tailgating
- Distracted Driving
- NSC Safety Tips
- Wet Weather

DriverCheck offers a full range of driver monitoring services. Since 1986, they have been recognized all across North America by the familiar “How’s My Driving” decal. The DriverCheck risk management program has been used by thousands of companies in the United States and Canada to lower collision frequency and costs, to save lives, and to add money to the bottom line. DriverCheck has recently added telematics solutions (GPS) and on-line driver safety training to their service offerings. Visit drivercheck.net for more information.

OneBeacon Technology Insurance, a brand of OneBeacon Insurance Group, Ltd., delivers all-lines underwriting solutions for the technology, life science and medical technology, and telecommunications industries. The specific capabilities offered include risk control, claims and third-party vendor solutions. Products span property, casualty, cyber, E&O, international, products liability and professional overages. Our dedicated team of insurance professionals delivers custom solutions as needed to each of our customers.

OneBeacon Insurance Group Holdings, Ltd. is a subsidiary of Intact Financial Corporation (TSX: IFC). OneBeacon’s underwriting companies offer a range of specialty insurance products sold through independent agencies, regional and national brokers, wholesalers and managing general agencies. Each business is managed by an experienced team of specialty insurance professionals focused on a specific customer group or industry segment, and providing distinct products and tailored coverages and services. OneBeacon’s solutions target group accident and health; commercial surety; entertainment; environmental; excess property; financial institutions; financial services; healthcare; inland marine; management liability; ocean marine; public entities; technology; and tuition refund.

All online training modules are:

- Professionally produced in HTML5 and viewable on most platforms and devices.
- Focused and concise (average length: 15 minutes).
- Engaging and interactive, requiring responses from the driver as a way of progressing through the content.
- Results-oriented, with a safety quiz at the end to reinforce what the driver has learned.
- Easily accessed from a link in automatically produced emails (from a manager to a driver).
- Available at any time for unlimited use by all drivers enrolled.

Program includes use of DriverCheck’s proprietary Learning Management System, including the ability for managers to:

- Easily assign modules to drivers, either individually or by hierarchy groups.
- Set deadlines by which individual modules are to be taken.
- Automatically send email to drivers showing modules they have been assigned with the associated deadlines.
- Easily manage the drivers and hierarchy in the database, for example by uploading lists of company drivers from a spreadsheet.
- Quickly add and delete drivers from the driver database.
- Receive reports on driver module completion, deadlines missed, etc.
- Work with a National Accounts Manager to oversee the effectiveness of the program.

Pricing

\$10 per driver for six training videos that best fit your needs from our library of 15 video programs, with \$1 per video for additional videos.

.....
**Coverages may be underwritten by one of the following insurance companies: Atlantic Specialty Insurance Company, Homeland Insurance Company of New York, Homeland Insurance Company of Delaware, OBI America Insurance Company and OBI National Insurance Company.*

This material is intended as a general description of certain types of insurance coverages and services. Coverages and availability vary by state; exclusions and deductibles may apply. Please refer to the actual policies or consult with your independent insurance advisor for descriptions of coverages, terms and conditions. Some coverage may be written by a surplus lines insurer through a licensed surplus lines broker. Surplus lines insurers do not generally participate in state guaranty funds and insureds are therefore not protected by such funds.
