

DriverCheck: Telematics Available For OneBeacon Technology Insureds

Where innovation meets experience to solve your technology risk management needs. Working with OneBeacon Technology Insurance™ means you can rely on an exceptionally responsive team that is highly knowledgeable about the dynamic technology industry. We don't just know tech, we're passionate about it and those who share our focus. And because of our flat organization, you will always reach an empowered decision-maker who can promptly solve your risk management needs.

Our risk management services are built to deliver high-quality solutions to help safeguard against risks that threaten your business success. And our flexible, innovative risk control services identify loss mitigation strategies for existing—and emerging—issues and technologies.

OneBeacon Technology Insurance wants to help—before a driver's behaviors lead to a collision. Working with DriverCheck, a leader in the driver monitoring field, we are pleased to offer services that will monitor driving behaviors and provide follow up counseling and training resources to help ensure that drivers are correcting their over-the-road operation errors.

FleetTRAC GPS Monitoring Service – comes with full use of the FleetTRAC SmartMapp technology dashboard with management training and customer support, which includes:

- A National Accounts Manager to oversee the effectiveness of the program.
- Seamless integration with other DriverCheck program reports.
- Real time location of vehicles with historical route replay.
- Alerts on driver behavior and vehicles status, which includes harsh braking, fast acceleration, speeding, idling, battery voltage and power loss/device tampering.
- Posted speed limit analysis.
- Automated maintenance reports based on time intervals, engine hours and/or mileage, as well as engine systems monitoring and reporting when out of factory specifications.
- Geo Fence – configurable alerts when entering or exiting a location.
- GIS map integration.
- Third-party vendor software integration.
- Unlimited users with access from any internet connected device.
- 2 years of data storage.
- Idle and start-stop driving reports among a total of 35 different reports (as chosen by your company).
- Client customization for reports.
- Email/text message event based alert notification.

DriverCheck offers a full range of driver monitoring services. Since 1986, they have been recognized all across North America by the familiar “How’s My Driving” decal. The DriverCheck risk management program has been used by thousands of companies in the United States and Canada to lower collision frequency and costs, to save lives, and to add money to the bottom line. DriverCheck has recently added telematics solutions (GPS) and on-line driver safety training to their service offerings. Visit drivercheck.net for more information.
